

WE RATE DOGS !.

Wrangle and Analyze Data

WHAT I AM DOING ?

- I'm finding a relationships between us (humans) and dogs by analyzing datasets of twitter .
- There is an account called @dog_rates which post a really nice pictures of dogs and allow tiwtteres to tweet and rate them .
- The rates are out of 10 , and we will discover more about results when we answer a questions I have asked to know more .

@DOG_RATES TWITTER ACCOUNT !

Question number one :

Do Twitterers Favorite three time as much as they retweet ?.

Question number two :

- through which twitter platform often 'WeRateDogs' access their account ?

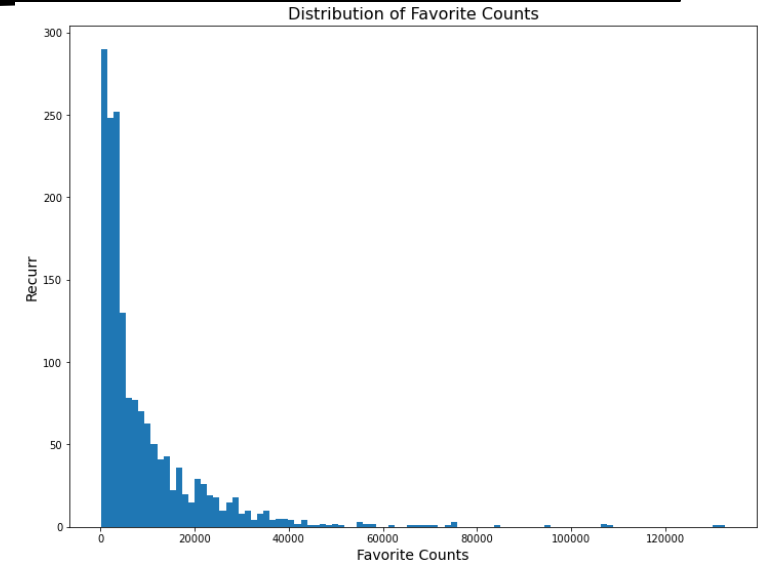

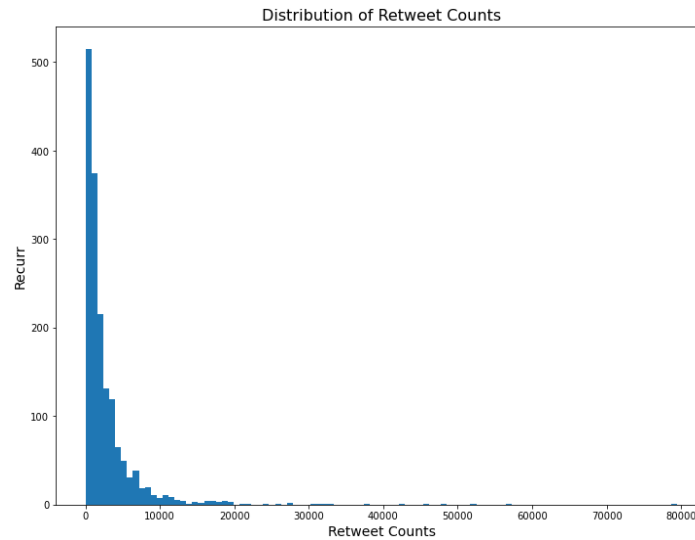

Q1 : ANSWER

Well ...

As from the plots

The favorite counts are always higher than the retweet counts, do really tweeters like to favorite rather than retweet and make others share their thoughts with the ratings ?, but that's is enough evidence to say that yes they favorite three times more than retweeting .
